

This product is packaged with the printable side facing up.

PICTORICO

PICTORICO Inkjet Media are compatible with a wide range of color and black-and-white inkjet printers. Because of variations among printer and ink manufacturers, some adjustments may be required to ensure the best results.

Product Handling and Storage

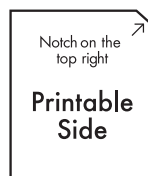

- Avoid touching the printable surface of the sheet. Hold it by its edges.
- Before stacking or storing your prints, allow sufficient time for the ink to dry thoroughly.
- Store unused sheets flat inside the package and keep in a cool, dry place. Keep the products away from moisture and high humidity, high temperatures or direct sunlight.

Media Loading

- Single sheet feeding is recommended.
- Consult your printer manual for the correct loading method, and make sure the printable side is oriented properly in the sheet feeder.

Pro Hi-Gloss White Film, Pro OHP Transparency Film, and Pro Ultra Premium OHP Transparency Film

The printable side is facing you when you hold the sheet in portrait orientation with a notch on the top right, as illustrated.

Gekko Black

The printable side is more matte than the reverse side.

Premium Dualside Photo paper

Both sides are printable.

Art Kenaf Paper

Both sides are printable. Please note the texture of the side is different. Choose the preferable side for your application.

Pro Photo Canvas, Art Cotton Paper, and Art Cotton Paper Texture I

These products are packaged with the printable side facing up.

Other Paper

The printable side is glossier than the reverse side.

Printer Settings

- Select media type and print mode setting using your installed printer software. Generally, the highest output resolution settings produce the best results.
- Some experimentation may be required. Please refer to your printer manual or go to our website (www.pictorico.com) for specific recommendations.

Ink

- For Epson printer users, all media are designed primarily for use with Photo Black ink. Art Cotton Paper, Art Cotton Paper Texture I, and Art Kenaf Paper can also be used with Photo Matte ink.

Limitation of Liability

- *PICTORICO* products are intended for use with today's desktop inkjet printers. Products are guaranteed against manufacturing defects.
